Interim Report

The Directors have pleasure in presenting the unaudited Interim Condensed Consolidated Financial statements for the six months ended June 30, 2024, prepared in accordance with FRS 104 Interim Financial Reporting.

Financial & Operational Performance

	January to June 2024 m	January to June 2023 m	% Change
Passengers	17.9	17.1	5%
Turnover	€504.3	€458.8	10%
Group EBITDA	€162.2	€121.9	33%
Operating costs	€257.3	€252.5	2%
Group profit after tax before exceptionals	€82.1	€48.8	68%

During the first six months of 2024, a total of 17.9 million (June 30, 2023: 17.1 million) passengers passed through both airports which is a 5% increase on the comparative six-month period. Passenger traffic at Dublin Airport increased by 5% compared to the same period in 2023, while traffic at Cork Airport increased by 11% reflecting robust demand from both passengers and airlines.

Total Group turnover for the six months ended June 30, 2024, was €504.3 million (2023: €458.8 million), an increase of 10%. The higher domestic passenger numbers contributed to a 15% increase in domestic revenue to €389.3 million (June 30, 2023: €337.1 million).

Aeronautical revenue increased by 21% to €157.1 million (June 30, 2023: €130.3 million) and domestic non-aeronautical revenue increased by 12% to €232.3 million (June 30, 2023: €206.8 million). Non-aeronautical revenue was primarily driven by strong food and beverage sales, retail sales and other passenger related services including carparking and lounges.

The Group's domestic travel retail business continued its strong growth with revenue up 13% on the comparative six-month period. During the six-month period June 30, 2024, a new branding for the duty-free stores at Dublin and Cork airports was successfully unveiled. The stores, formerly known as The Loop, have been rebranded as Dublin Airport Duty Free and Cork Airport Duty Free, with each drawing inspiration from the heritage of its home city and bringing this to life in a way which speaks to modern airport customers.

The Group's international retail, consultancy, and management business, operated through Aer Rianta International cpt (ARI) and daa International Limited (daal) also continued to grow in the first half of 2024 with profits before tax attributable to these businesses increasing from €10.5 million to €14.2 million (see International Overview below).

The Group holds investment properties in Dublin and Cork which are carried at fair value. The commercial property market has shown a decline in capital values in the six months to June 30, 2024, and this is reflected in the €7.1 million revaluation adjustment at June 30, 2024 (June 30, 2023: fair value gain of €4.1 million).

Interim report for the six months ended June 30, 2024

The Group's share of profits after taxation in its associated undertakings and joint ventures, for the period is €8.4 million (June 30, 2023: €9.4 million). The reduction is primarily driven by a tax refund received in April 2023 and the impact of changes in arrivals shopping in Delhi, offset by improved trading performance in other locations.

In total, the Group generated a profit after tax and before exceptionals of €82.1 million, a significant improvement on 2023's profit after tax and before exceptionals of €48.8 million.

Across both Dublin and Cork airports and across the wider international businesses, daa's operational performance remained strong, and the Group continues to focus on investing in its infrastructure and services to meet growing demand. In respect of Dublin Airport for the remainder of 2024 and beyond, the Group faces significant challenges related to the 32 million passenger terminal capacity constraint and the potential cap on night-time flights which removes the opportunity for continued passenger growth at this key location.

International Overview

Aer Rianta International cpt (ARI)

Whilst overall, ARI saw a reduction of €11.7 million in total revenue in the six-month period ended June 30, 2024 to €94.3 million primarily due to discontinued operations in Auckland in 2023, the remaining locations have delivered a very strong performance with total revenue in the six-month period increasing by 12% to €94.3 million (June 30, 2023: €84.3 million*). As passenger volumes continue to increase across all the Group's overseas locations, ARI continues to maximise revenues by focusing on the key revenue drivers which are space growth, increasing average transaction value ('ATV') and passenger average spend ('PAS') and driving operating margins.

Despite various international conflicts, strong profitability was achieved in the period. ARI continues to closely monitor global tensions to assess any potential future impact on the business.

ARI continues to develop the customer value proposition by providing customers with joyful and convenient shopping experience. ARI's Portuguese business, Portugal Duty Free, is undergoing a significant refurbishment programme across several locations. Once completed, these redevelopments will present stores which offers localised design tailored to better address the changing requirements of its customers.

**excluding discontinued operations*

daa International Limited (daal)

daal's business has continued to grow during the first six months of 2024, generating revenues of €20.6 million, an increase of €4.9 million or 31% compared to the same period in 2023.

daal has completed year 2 of a 5-year contract at the King Abdulaziz International Airport (KAIA) in Jeddah, where daal provides operations, facilities maintenance, and commercial services. The daal team has just executed another successful operational plan at the KAIA Airport to support the annual Hajj pilgrimage to the holy cities of Mecca and Medina. The passenger numbers at KAIA is expected to reach 50 million passengers in 2024.

At King Khalid International Airport (KKIA), daal returned Terminal 5 to KKIA management in January 2024, successfully completing the Company's key strategic objective of knowledge transfer over the 7 years daal managed the airport. The wider team at KKIA, providing business continuity, business development, and commercial support services to Riyadh Airport Company (RAC),

continued during H1 2024. In 2023, daal successfully opened the new Red Sea International airport at the Red Sea resort, with domestic operations commencing in September 2023 and the first international flight in April 2024. The team now manages the full aerodrome at the airport, combined with provision of advisory services to support the opening of the full airport terminal building in 2025.

Funding & Liquidity

For the six months ended June 30, 2024, the Group generated a cash inflow of €146.0 million from operating activities (June 30, 2023: outflow of €5.9 million after repaying taxes warehoused during COVID-19 amounting to €81.5 million).

On June 10, 2024, daa paid a dividend of €31.0 million to the Group's shareholder (2022: €Nil).

Net debt is €808.6 million as at June 30, 2024 (June 30, 2023: €923.1 million).

On 11 July 2024, S&P Global Ratings upgraded daa's credit rating by one notch to 'A/A-1' from 'A-/A-2' due to the expectation of strong operational and financial performance. The outlook continues to be viewed as stable.

Capital Investment

Capital investment in the six-month period amounted to €99.5 million, net of grants received of €1.3 million (June 30, 2023: €88.1 million, net of grants received of €Nil).

The spend to date this year includes investment in critical taxiways and stands on Dublin's airfield, the completion of new Food & Beverage offering in Terminal 2 at Dublin Airport, spend on sustainability initiatives and the deployment of new C3 screening equipment in both terminals in Dublin Airport.

A key focus for infrastructure development at present and into 2025 will be securing planning permission to increase the capacity of Dublin Airport to 40 million passengers per annum and allow for the delivery of critical required capacity enhancements such as new piers, taxiways, and other airside facilities.

Environmental, Social and Governance (ESG)

The EU Directive 2022/2464 on Corporate Sustainability Reporting has recently been transposed into Irish legislation and daa is actively working to meet its reporting requirements from January 1, 2025. daa is presently completing its double materiality assessment for this new standard. In addition, daa will update its ESG strategy during the second half of 2024. The Group's updated ESG strategy (2024-2030) will build on the businesses current ESG targets and its role in facilitating the change required in the wider aviation industry to transition to a more sustainable model. Our commitment to being a sustainable business was validated with the award of the "ESG Company Award (Enterprise) 2024" at the Business & Finance ESG Awards in May of this year.

Environmental Sustainability

daa's environmental sustainability approach continues to focus on the businesses commitment to carbon reduction in line with the Climate Action Plan and aviation's wider ambition of achieving Net Zero carbon emissions by 2050.

Interim report for the six months ended June 30, 2024

Environmental Sustainability continued

During the first six months of 2024, daa has committed to the Science Based Targets Initiative (SBTi) and have begun work on a Climate Risk Assessment to develop a robust, science-aligned path towards these significant commitments. The Company has unveiled a 20-point plan of immediate environmental sustainability initiatives across Dublin and Cork airports, which will accelerate both airports' climate and sustainability ambitions across decarbonisation, circularity, and healthy local environments. daa was awarded the Smarter Travel Mark by the National Transport Authority, recognising organisations with a broad range of measures supporting sustainable travel.

We were also named "Sustainability Team of the Year 2024" at the Green Awards for our continued commitment and progress in environmental sustainability.

Community Engagement and Initiatives

Engaging proactively with the local community is a fundamental priority for daa in 2024. In addition to engagement, the Company has put a strong focus on increasing our understanding of community issues and delivering clear, consistent data and information on key topics such as noise impact. There will be a continued focus on these priorities through to the end of the year, which will include initiatives such as updating and developing key aspects of the Dublin Airport website relating to community and noise, and the publication of noise data.

Community investment is also critical in terms of supporting our local community. daa have already allocated over €250,000 in funding to local projects via the Dublin Airport Community Fund this year and will allocate another round of funding in the autumn, as well as engaging with staff to deliver volunteer 'Difference Days' to transform outdoor spaces in the local area.

A crucial priority in H2 2024 is the development of a community plan which will align with the business' ESG Strategy 2024-2030.

Principal Risks and Uncertainties

Details of the principal risks and uncertainties facing the Group can be found in the 2023 Annual Report on pages 20 to 26 and continue to be the principal risks and uncertainties facing the Group for the remaining six months of the financial year. The Group actively manages all risks through its control and risk management process.

1 General information and basis of preparation

daa plc ('the Company') is a Company incorporated and domiciled in Ireland under the Companies Act 2014. Its registered number is 9401 and the address of the registered office is Three, The Green, Dublin Airport Central, Dublin Airport, Swords, Co. Dublin K67 X4X5.

The Company and its subsidiaries (together 'the Group') principal activities are airport development, operation and management, international airport retailing and international airport investment. The Group operates and manages Dublin and Cork airports in Ireland. It undertakes airport retailing in Ireland and in a range of international locations through its subsidiary Aer Rianta International cpt. International aviation operations, management and consultancy are carried out through daa International Limited. The Group currently has investments in three European airports and operates two airports in Saudi Arabia on a contract basis.

The Interim Condensed Consolidated Financial statements for the six months ended June 30, 2024, are prepared in accordance with FRS 104 Interim Financial Reporting. The Interim Condensed Consolidated Financial statements do not include all the information and disclosures required in the Annual Report and should be read in conjunction with the Annual Report for the financial year ended December 31, 2023.

The Group has prepared the Interim Condensed Consolidated Financial statements on the basis that it will continue to operate as a going concern. The Directors consider that there is no material uncertainty that may cast doubt over this assumption. They have formed a judgement that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for a period of 12 months from when the Interim Condensed Consolidated Financial statements are authorised for issue.

The accounting policies, critical accounting judgements and estimates and methods of computation adopted in the preparation of the Interim Condensed Consolidated Financial statements are consistent with those followed in the preparation of the consolidated Financial statements for the financial year ended December 31, 2023.

The reporting currency of the Group is considered to be Euro, rounded to the nearest thousand (€000), as that is the currency of the primary economic environment in which the Group operates.

7 Taxation on profit on ordinary activities continued

Corporation tax is provided on taxable profits at current rates.

The overall Group effective tax rate for the period ended June 30, 2024, is 20% (June 30, 2023: 18%). The key driver of the increase in the effective rate is due to the increase in income generated by the Group that is subject to tax at a higher rate.

The OECD's BEPS Pillar Two income taxes legislation is effective in Ireland from 1 January 2024. Based on its assessment of the data available up to June 30, 2024, the Group does not expect a material exposure to Pillar Two in any jurisdiction in which it operates.

The Group is continuing to assess the impact of the Pillar Two income taxes legislation on its future financial performance.

Investment property comprises land and buildings owned by the Group and is measured at fair value at each reporting date with changes in fair value recognised in the profit or loss account. The fair value of the investment properties is based on management's assessment of market inputs provided by independent valuation specialists who hold a recognised and professional qualification and have recent experience in the location and class of the investment properties being valued.

Valuations are carried out having regard to comparable market evidence relevant to each specific property or class of properties. In assessing fair value for all the investment properties, current and potential future income has been capitalised using yields derived from market evidence. The Group's management, in discussion with external valuers, have determined the appropriate judgements used in the valuations based on the size of the properties, rental values, repair and condition. There are no restrictions on the realisability of investment property or the remittance of income and proceeds of disposal.

11 Fixed assets – Investments continued

In the opinion of the Directors, the net realisable values of the financial assets are not less than the carrying values. The basis on which financial assets are stated is set out in the accounting policies in the consolidated Financial statements for the financial year ended December 31, 2023.

The key assumptions in the value-in-use calculations include growth rates of revenue and expenses (including minimum annual guarantees in concession lease agreements), discount rates and likelihood of lease renewal. The principal operating subsidiary, associated and joint venture undertakings of the Group, all of which are included in the Group Financial statements, together with the Group's beneficial holding of ordinary shares, net of minority interest, at June 30, 2024, are as set out in the consolidated Financial statements for the financial year ended December 31, 2023, and are not repeated here.
